PROFESSIONAL SUMMARY

Aspiring Python Full Stack Developer with an MBA and Full Stack Python certification, backed by 3.6 years of professional experience at Tata Consultancy Services (TCS). Skilled in Python, Django, Flask, HTML, CSS, JavaScript, MySQL, SQLite, and Bootstrap, with a strong foundation in object-oriented programming, database management, and full-stack web application development. Proven ability to build real-time, data-driven applications through hands-on hackathon experience, combined with strengths in process optimization, cross-functional collaboration, and analytical problem-solving.

TECHNICAL SKILLS

- Languages & Frameworks: Python, Django, Flask, JavaScript, HTML, CSS, Bootstrap, React JavaScript
- Databases: MySQL, SQLite
- Tools & Platforms: VS Code, GitHub, Git, XAMPP, Figma, SAP, ADR7, STIBO
- Core Concepts: Object-Oriented Programming, Database Management, Full-Stack Web Development
- Soft Skills: Problem Solving, Critical Thinking, Communication, Leadership, Active Learning, Empathy

PROJECTS

LifeLink AI – Emergency Medical Response & Ambulance Dispatch System

Codathon, 2026

Tech Stack: Flask, SQLite, HTML, CSS, JavaScript | Team of 4

- Developed a three-panel frontend dashboard covering patient assessment, hospital ranking, and pre-alert/live map tracking.
- Built a rule-based AI model to score patient severity in real time using vitals and reported symptoms.
- Engineered a hospital ranking system based on ICU bed availability, specialist presence, distance, and emergency readiness.
- Migrated the backend database from MySQL to SQLite mid-project to eliminate setup friction and meet the hackathon deadline.
- Collaborated with a 4-member team, owning frontend development and later extending scope to backend integration.

Delivery Optimization System (MySQL):

- Designed and queried a relational database using MySQL to optimize delivery routes and reduce delivery time.
- Used SQL function such as Group By, having functions to generate performance reports on delivery efficiency.

Theneer – Coffee & Snack Ordering App

Google UX Professional Certification

- Designed a mobile application to simplify ordering coffee and healthy snacks for busy professionals and students, featuring customization, pre-ordering, and self-pickup.

Pet Adoption Platform

Google UX Professional Certification

- Built a user-friendly web platform connecting people with animal shelters, including shelter visit scheduling and online veterinary advice.

Accessible Cookbook

Google UX Professional Certification

- Developed an accessibility-focused cookbook website for visually impaired users, featuring screen-reader-friendly navigation and text-to-speech options.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) — Information Processing Specialist (Merchandising Assistant)Chennai, TN | 2022 – 2025

- Assisted in managing merchant-related operations, improving overall workflow and operational efficiency by 100%.
- Collaborated with Master Data Management, Suppliers/Vendors, Category Managers, Transportation, and Supply Chain teams to support inventory management, pricing updates, catalog management, and vendor setups.
- Partnered with clients to pilot and implement a new process that improved workflow outcomes by 40%.
- Created and analysed reports to support data-driven decision making.
- Delivered daily task guidance to team members and led organized daily task reviews to ensure quality execution.
- Organized and moderated team discussions to brainstorm solutions for process challenges, improving workflows by 20%.
- Authored and maintained 13 Standard Operating Procedures (SOPs) to streamline operations and ensure process consistency and compliance.
